

## Fireworks Safety

Fireworks are small explosives that make a noise and a bright light. They are fun to watch, but they are dangerous to use. Some cities have banned all fireworks. Other cities allow “Safe and Sane” fireworks.

Here are some safety tips:

1. Buy legal fireworks.
2. Follow the directions.
3. Keep children away.
4. Keep a garden hose ready.
5. Fill a bucket with water.
6. Stand far away.
