

# Cutting the Grass

Reading Aloud Worksheet

## *Cutting the Grass*

Paul cuts the grass twice a month. He usually does it on Saturday mornings after he eats breakfast because he doesn't work on the weekend.

Weekends are a good time to do chores around the house. Most of Paul's neighbors have gardeners that mow their lawns but Paul likes to do it himself. He has a new lawn mower and the blades are sharp.

When Paul was young he used to cut the grass for his parents. His dad paid him \$5.00 a week for watering the grass and mowing the lawn. That was a lot of money back then.

Paul is an adult now but he still enjoys the smell of freshly cut grass. Both he and his wife Sandy are proud that their front yard looks neat and tidy.
