

One Foot – Two Feet

People have two feet. They have a right foot and a left foot. Foot is singular.

It means one. Feet is plural. It means two.

A foot has a top, a bottom, a heel, and five toes. The largest toe is called the big toe. The smallest toe is called the little toe or the “little piggy”. Each toe has a toenail.

Feet are important. We walk on our feet, run on our feet, dance on our feet, and play sports on our feet. What else can we do with our feet?
