

# Movie Theaters

Read Aloud Worksheet

*Movie  
Theater*

It's fun to see a movie at a movie theater. The screen is large and the sound system is wonderful. The seats are comfortable and the theater is air conditioned.

You can buy snacks at the snack bar. Popular hot snacks are popcorn, hot dogs, nachos, and soft pretzels. Cold snacks include candy bars, muffins, potato chips, and ice cream bars. Of course, they also sell soda and bottled water.

The food at the snack bar is expensive so some people eat before they go.

Adventure movies are popular because they have a lot of action. Romance movies and comedies are also popular. What is your favorite type of movie? I like spy movies!
