

# Rain

Read Aloud Worksheet

*Ducks Wearing Rain  
Hats and Boots*

Ducks love the rain. It rolls right off their feathers. This mother duck and her baby ducks are prepared for the rain. They are wearing rain hats and rain boots. They are not wearing raincoats.

Humans wear rain hats, raincoats, and boots when it rains. They also carry an open umbrella over their heads to keep the rain off of them. They try to stay dry.

Most adults don't walk in puddles but children love to stomp in puddles and make the water splash.

Drivers should be extra careful when it rains because the roads are slippery. They should allow extra space between them and the vehicle ahead of them. They should also turn on their headlights and windshield wipers.
